Dear _____:

Mr. Robert I. Remen, Executive Director of the California Transportation Commission, has asked that I acknowledge receipt of your letter to him in which _____ proposes to contest adoption of a Resolution of Necessity.

In order to evaluate completely the issues you have raised, it is necessary that the Resolution affecting your or your client's property be rescheduled and not be submitted to the Transportation Commission at its _____, 19__ meeting.

Your appearance before the Commission will follow a First and Second Level Review process, conducted with your participation, to assure that all issues are identified and, if possible, resolved. The First Level Review meeting will include members of the District Right of Way and Project Development Offices. The Second Level Review meeting, if necessary, will be attended by representatives of our Legal, Engineering and Right of Way functions.

Arrangements for these meetings will be handled by the District Right of Way Office. You will be contacted for time and place confirmation.

Sincerely,

G. V. HOOD, Chief
Division of Right of Way
